

List of tested and released media for Divar Digital Versatile Recorder

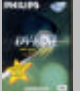

Version 1.5, August 30th 2004

The Divar external DVD writer (DVRXEDVD1) connected to a Divar 2.0 or the Divar with internal DVD writer may not support all CD and DVD media. Following is a list of approved CD and DVD media not sold by Bosch.

After making an archive with the Divar, we advise you to test the CD/DVD that the data has been archived on, to verify that it can be played back correctly on a PC.

	Brand	Type	Media Speed	Media Size	Divar External writer	Divar with internal DVD writer
CD-R(W) (most other brands/types available will work also)						
	iMation	CD-R	1x-48x	700MB	OK	OK
	iMation	CD-RW	4x-10x	650MB	OK	OK
